

CV

November, 2007

Katsuya Urushizaki

Since 1998, I have been developing my graphic design technique and knowledge. I am proficient in the technical skills required in organising projects from initial ideas to execution. I am meticulousness in my approach to ensure quality and standards are met. I like to share and discuss knowledge and information learned from my studies and research and I have also presented my work to audiences and clients.

My work follows commercial principles and achieves best efficiency. At Copy Express design consultancy in Japan, I was in charge of analyzing issues and initiating projects to solve advertising and promotion problems. I have also exhibited personal moving image projects and graphic design in London and Japan. My experience has enabled me to work well under pressure while meeting deadlines and maintaining quality in every project.

I have gained technique in promotion methodology to make successful communication with a target audience and I am confident in organizing large scale projects to be published in mainstream media networks.

I am hardworking and committed in furthering my career in graphic design, through all mediums, and progressing my own long term personal projects
